## Home & Product Design

I'm an expert of designing and using design programs. I can design house plans and design parts for your needs. I can also design parts that are not made anymore. Just bring the old part and i will take the dimensions and design you a new one.

Located in Lynden WA at my home 1 employee. People that need a part and can't find the part at a store and have it manufactured for a low price. Justa bring the original part and i will design it for you. And if you're in need of house plans, i can make them for you or even make the house of your dreams. This business will atract those that are in the construction of housing and those that are in the manufacturing business.
