

# Photogene

- 1) The service that I am offering is a professional photography and using my photoshop skills to perfect the photos.
- 2) I have taken two years of photography classes and have gotten first place in my division for photography. I am currently taking a class on photoshop online.
- 3) I am the only employee.
- 4) My facility will be located in my apartment in Seattle. I will be able to take the pictures and use my home mac to photoshop them. I will have purchased a Mamiya 645 AFD III Camera along with the photoshop software.
- 5) There may be many photographers out there but once you take a look at my work you will see that I am the right choice for your picture needs.
